

Our Vision

"To provide world class solutions globally for first and second tier carriers and telecom service operators to minimize their investment and operating costs by leveraging state-of-the art telecom technologies."

Mission

"Exceed clients' expectations through optimum quality. Improve clients' cost-performance through technology"

Quality Commitment

Quality is a measure of the result of the efforts of the individuals of a company to consistently meet or exceed the standards set by that company.

VSC is committed to the establishment and communications of clear professional standards and the comprehensive measurement of our efforts to meet these standards to ensure the best possible solutions are delivered to our customers.

A comprehensive program to review our compliance and to improve our efficiency and effectiveness is undertaken continuously.

Every member of the VSC team is expected to support this goal by consistently demonstrating high levels of professionalism, competence in their tasks and in their responsiveness to our customers.
