

VSC Profile

As a result of our business expansion, VSC has organized its business into three (3) different operational divisions - VSC Solutions, VSC Global Telecom and VSC Ventures. These divisions share a common vision; to deliver products and services with the highest possible value, enabling our customers to realize their full commercial potential.

VSC Solutions manufactures innovative and advanced IP-based telecommunication solutions. It delivers total solutions to telecom service operators throughout Asia Pacific and is expanding with our customers worldwide.

VSC Global Telecom offers a full range of telecom services, including retail and wholesale services utilizing VSC Solutions' systems to provide cost-effective IP-based services for the business / enterprise and consumer market.

VSC Ventures is responsible for extending the reach of VSC by forming innovative and mutually beneficial partnerships with telecom service operators worldwide utilizing systems developed and deployed by VSC Solutions. Early successes of this business model include agreements with telecom operators in China, Hong Kong, Japan, Bangladesh and Nepal.
