

Company Introduction

VSC was founded in Hong Kong in 1999. We have successfully developed advanced telecom solutions for the global market for over a decade. Our customers range from the top telecommunications carriers to smaller telecom operators and resellers in Hong Kong and throughout the world. Our solutions assist our customers to improve their business result by deploying the latest Internet Protocol (IP) based infrastructure and enable them to offer innovative new services to their subscribers.

We are expanding our team in response to our growing business. If you are looking for an opportunity to work with professionals who are developing the next generation telecom technology solutions in a challenging environment as a member of small team, then we would like to speak with you.

We provide in-house and on-the-job training in telecom technologies.
